

A gift has been given in your honor to someone in need.

Clean Water

Clean water is scarce in remote villages of Haiti. A simple hand pump in the center of town can bring a dramatic improvement to the life and health of the villagers. Water shares are used for pump and fountain installation, irrigation systems, and other water engineering projects. A typical \$25 water share corresponds to approximately 10 people receiving clean water.

Starfish Treasure is a unique way to send and receive gifts: the physical item goes to someone in need, but the honor and good wishes go to you.
